SBT **is acquired by** **ACCPAC International**

Good news for SBT customers! SBT is now part of one of the largest families of accounting technology products. SBT was acquired by ACCPAC International, Inc., a division of Computer Associates' interBiz group, in late June of 2000.

We view this as good news for our customers, because the combined companies form a substantial industry leader. The future of your SBT products will continue forward with ongoing investment in research and development. You will continue to see upgrade opportunities and new product announcements in the SBT product line.

Since SBT products are quite different from ACCPAC products, there are strong future customer bases for both product lines. As a result, both ACCPAC products and SBT products will move forward as distinct product offerings.

We will continue to provide support and services for the SBT product line. You can expect very little change as a result of the merger. Over time you can expect more options and more product choices as your business evolves and continues to expand.

We look forward to continuing to serve you. If you have any questions please contact us at (888) 350-7638.

Providing Complete System Solutions

Dominance Software is a Value-Added Reseller for SBT Accounting and Information Software, including the Professional Series, Vision Point 10, Lahey and JobCost. We also provide, Goldmine, COSS Systems and TIW Manufacturing Software along with

Helping you grow through total system integration

many other vertical applications including Citrix. Computer networking and Visual FoxPro programming are part of our family of services. Our focus is meeting *your* needs and expectations.

On August 16, Dominance Software Development, Inc. in conjunction with Citrix Systems, Inc. hosted a Citrix MetaFrame Seminar at Sinclair Community College in Dayton, Ohio.

Citrix MetaFrame 1.8 being the "best of the breed" for server based computing, is the fastest, most reliable form of remote access available in today's market. Dominance Software Development, Inc. is certified in sales and installation of Citrix products. MetaFrame used as an application server will help to keep traffic down on a crowded network, reducing the required bandwidth, thereby improving speed.

MetaFrame can also lower your equipment budget by allowing older equipment to run sophisticated applications from the server. If you would like more information about Citrix products, please contact Gary Kline or Tracy Crowe at (888)350-7638.

A Special Thank You to...

Randy Weddle
Operations Manager
Cable and Computer Connexions

Doug Hoy
President
Fox Lite, Inc

Mike Gutman & PJ Bimonte

Dayton Industrial Exhibition

On October 31– November 2, 2000 we will be at the Dayton Convention Center. If you get a chance to come out to the Dayton Convention Center for the Dayton Industrial Exhibition, be sure and stop by our booth. We will have information on our products, as well as business consultants who will be more than happy to assist you in any way possible. If you would like more information on the Dayton Industrial Exhibition please contact us at (888) 350-7638.

Tips & Tricks

Q: Where do I enter my Federal and State ID's so they will print on my W2's?

A: Under Maintain\Jurisdictions\ enter "US" for federal and "OH" for state.

TAX INFORMATION RESOURCE:

"www.taxsites.com" is a great resource for tax information on the web. Once you are here you can click on the state tax link. This site provides links to a wide variety of national and state organizations, provides rates and data on payroll, state and sales taxes, state tax rates and structure, and covers all types of news, issues and topics related to taxes.

Acknowledgements

We would like to take this time to acknowledge the growth of our clients:

Floyd Bell, TIW Workshop32 6.5

Hard Fire Suppression, Lahey Project Accounting

Mitchell Golf, Pro 6.0

Tops Engineering, Goldmine 4.0
