## *Elevator* *the floor to ceiling SBT/ACCPAC* *e-commerce solution*

Elevator is the complete e-commerce solution for ACCPAC Professional Series and Vision Point. Not only will Elevator move ACCPAC data 'up and down', it will take your business to the next level!

Elevator is designed with the Pro Series and Vision Point user in mind.

- Recognizes and reacts to your changing business
- Automatically refreshes web site data
- Automatically imports orders and payments
- Uses familiar interface for data maintenance

Elevator consists of three modules which together provide a complete and automatic integration of your ACCPAC software and your website:

- Configure your inventory and customer data with the Elevator Function Set.
- Design a Web site to match your corporate image with the Dynamic Catalog .
- Integrate your backend accounting with ELFTP.

Use the Elevator Function Set to enhance your ACCPAC inventory and customer databases for e-commerce. The Elevator Function Set becomes a part of your ACCPAC Pro Series or Vision Point software so users can work in one environment.

(cont. col 2 pg 1)

## *Providing Complete* *System Solutions*

Dominance Software is a Value-Added Reseller for SBT Accounting, ACCPAC and Information Software, including the Professional Series, Vision Point 10, Lahey and JobCost. We also provide, Goldmine, TIW Manufacturing Software along with many other vertical applications

## *Adding Dollars to Your* *Bottom Line*

including Citrix. Computer networking and Visual FoxPro programming are all part of our family of services. Our focus is meeting *your* needs and expectations.

(cont. from col 1 pg 1)

Every Elevator site is unique! Your site should promote your business image - and with Elevator it does! Elevator has many optional features you can choose from. Each Elevator site can begin with a template or HTML you provide. If you provide the HTML, an Elevator engineer will integrate your HTML into the Elevator API. Each Elevator installation includes an Administrator Page for online HTML editing. You can maintain the site yourself, or you can work with a certified Elevator engineer to maintain your site.

Elevator integrates your Web site and your accounting data with the ELFTP file transfer program. ELFTP acts as a 'robot' moving data between your Web site and your Pro Series or Vision Point. This can be done with a permanent Internet connection or a standard dial up Internet Account. No costly permanent Internet connection is needed!

ELFTP runs file transfer events. Each event can be an 'upload' event (send inventory status) or a 'download' event (get sales orders). Each event can have it's own schedule - so your Web site is always current!

Changing prices in your Pro Series or Vision Point? Not a problem! Edit the pricing record and the next time ELFTP runs the Update Item Pricing script, your site will be current! In a hurry? Hit the RUN NOW button to force an immediate transfer.

We are now updating our website every week. If you get a chance please take a look at our new **DEMO** room. You can actually view and interact\* with each product we sell. If you have any suggestions or comments on our site, please let us know. Also if you would like to put your link on our site please feel free to contact us.

\*This requires a download of the ICA client. If you have any trouble please contact our office for assistance.

**Citrix Solutions...**

Reduce Cost. Improve security. Increase productivity.

Citrix solutions make business access as simple as a phone call.

Citrix solutions provide the effective and reliable access crucial to the success of a virtual workplace. In the process they produce real business results by solving the real challenges facing you today:

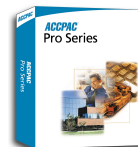

- Mobilizing your workforce with an office that goes anywhere
- Deploying applications in minutes instead of months
- Giving remote offices a greater sense of corporate community
- Keeping information available, no matter what

More important, Citrix solutions make your information more secure, your employees more productive and your company more profitable. All with faster time-to-impact, higher return on investment and lower cost of ownership.

And that is for real.

**ACCPAC Pro Series**

The new ACCPAC Pro Series 6.5 has many features we have all been waiting for. For Instance ACCPAC Pro Series now offer new Multi- Document Interface. This provides you with improved productivity and the capability to view to modules at one time. Pro Series also now has a drop down application menu which allows quick and easy access to any application in ACCPAC Pro Series. They have also incorporated a transaction roll back. For those of us who get interrupted you are now able to actually roll your system back prior to the transaction. Allowing you to correct the mistake in a timely fashion. You can also now copy data from ACCPAC and drop it into Microsoft Word and Microsoft Excel and vice versa. This allows for a quicker and easier way to retrieve specific information you need, rather than having to type all the information out. ACCPAC has incurred quite a new look and feel. You can actually fax, print, view or e-mail invoices, customer statements and reports or you can print and fax or print and e-mail. This is quite a time saver and you receive a quicker response time as far as new orders to be placed.
